## **WELCOME TO THE GREATEST CAR RACE IN SLOVAK REPUBLIC!**

The OMV MaxxMotion Grand Prix of Slovakia is coming to our circuit for the 14th time. Historically, it is one of the most important automobile events in Slovakia with large international participation of competitors from 8 European countries.

## **AS PART OF THE EVENT, THE RACES OF THE FOLLOWING CHAMPIONSHIPS WILL BE PRESENTED:**

FIA CEZ Circuit Racing Championships

FIA CEZ Circuit Endurance Championships

ESET Slovak International Championship in Sprint

ESET Slovak International Championship in  
Endurance

ESET CUP SERIES

Czech National Championship

Hungarian National Championship

Slovenian National Championship

Croatian National Championship

Austrian National Championship

Polish National Championship

The domain of the Slovak Grand Prix is a wide selection of categories and types of racing cars. For example, GT3 vehicles (Ferrari 458 GT3, Porsche 911 GT3, Audi R8 GT3, BMW M4 GT3, Lamborghini SuperTropheo...) are extremely popular - each with an original engine sound will delight fans in D4 division Sprints. The races are short and the starting field is very even, so the spectators will enjoy lots of thrilling moments. We also look forward to see the breathtaking prototypes (division D5).

Some well-known faces will be among the drivers of the domestic and foreign scene: Miro Konôpka is a veteran of Slovak motorsport and with his team ARC Bratislava. So far he has been the only Slovak at the start of the most famous endurance race 24 hours of Le Mans, several times. Štefan "Štofi" Rosina Jr. is currently collecting trophies in the European GT2 series and should race in his BMW M4 GT3. He is also still the only one in Slovakia with the victory in the FIA GT1 World Championship.

The all-day programme (from Thursday to Sunday) will offer the FIA Central European Zone Trophy (FIA CEZ) in both sprints and endurance, as well as the national circuit championships of Slovakia, the Czech Republic, Hungary, Slovenia, Croatia, Austria and Poland. The popular ESET Cup Series has trophies for the best racers in sprints and endurance. Cup series will be completed by Fiat Abarth Cup, Renault Clio Cup and Mazda MX-5 Cup.

The optional Thursday practices will be connected with the official programme on Friday, Aug 18th - we will witness free practices of all divisions and series, as well as the first qualifying races, even two Abarth Cup races. Saturday's early morning will bring beautiful sound of D2

division formulas. After early morning qualifications spectators will enjoy first sprints of all series and also the final endurance for 1.5 hours with a mandatory change of riders. The same programme of qualifications and exciting sprints will also be held on Sunday, Aug 20th.
